

Claremont College

2018 Student Information Guide

Welcome,
2018 is an important year for you. Whether you are commencing Year 11 or the final year of your school studies, whether you arrive here with excitement or some trepidation, this is a year you will remember, and a year you can make your own.

You are in charge of your learning program, perhaps for the first time. You can design it to match your strengths, interests, and ambitions you have for your life. Your school offers a rich choice of subjects that can support you to pursue your chosen career pathway, or to explore your interests and where they might lead.

A Year 12 qualification is an important building block for most jobs today, and you're on your way to achieving it. You may be planning to undertake vocational training, further study, or move straight into work, or perhaps you aren't yet sure of your path. Years 11 and 12 offer the chance to try different subjects, seek the advice of teachers, parents or carers, and research further education and career options, and build skills in different areas. You don't need to

have mapped out your career to set yourself up for future job and learning opportunities, but it is the ideal time to start thinking and planning for it.

The choices you make now will go a long way to supporting you in your future. Schools today offer a lot of flexibility, diverse practical and classroom-based subjects, and extracurricular activities, some of which you might not have considered. Inform yourself about what's there for you, and decide how you will get the most out of the year.

I encourage you to bring a mindfulness of your wellbeing to what may be an intense period of study and of life. While you should encourage yourself to achieve your goals this year, it can become easy to pile the pressure too high. Take time to tend to your physical and mental health. Find out what useful services and support are available at your school. Speak with family, friends, or teachers about your concerns throughout the year. You are your own greatest asset, and deciding to take care of yourself can only support you in what you plan to achieve.

Whatever pathway you are working towards, you and your peers are already helping to shape the future of Tasmania, and beyond. On behalf of your community, we look forward to seeing what you do next!

I wish you all the very best with your studies, and all that comes after.

Jenny Gale
Secretary of the Department of Education

Enrolment at Claremont College gives you the chance to make Years 11 and 12 two of the best years of your life.

The College is a vibrant and caring community. Whether you are on an academic pathway to university or a vocational pathway to the workplace, enrolling at Claremont College will assist you to reach your goals and also attain the highly valued Tasmanian Certificate of Education.

Many of you are probably undecided about your future career path and that is absolutely fine.

The experienced teachers and support teams at Claremont College will assist you to make wise choices; choices that are going to affect the quality of your life in the years ahead.

These choices start with your enrolment at the College. Orientation Day gives you the chance to obtain more information on some college courses and also experience college life. Teachers will continue visiting you in your high school to answer questions and assist with your enrolment into Year 11 for the remainder of the year.

At Claremont College we value individual programs and study support for all students in all subjects. The curriculum offers many subject choices, pathways and opportunities. We have a Tutorial Program for Level 3 courses and an enrichment program.

Enrolment and successful completion of Years 11 and 12 will increase your chances of employment and therefore a secure future.

We give you every opportunity to succeed and we believe you can succeed!

We look forward to meeting you in 2018.

Deb Bryant
Acting Principal

Claremont College is a senior secondary school for students in Years 11 and 12. Established in 1990, the College overlooks the Derwent River, 15 km from Hobart. It draws students from diverse backgrounds including city and rural localities across the Midlands and Derwent Valley.

The College has won national awards for quality teaching, educational excellence, initiative and Innovation. Its friendly size means that students have excellent access to modern facilities in smaller classes with high quality teaching staff.

A comprehensive tutorial and enrichment program enables students to have a balanced and personalised education. Claremont College provides a wide range of courses preparing students for university or further education, traineeships and apprenticeships or employment.

Claremont College offers:

- Academic courses which lead to university study
- Courses offering university accreditation
- Foundation courses
- Vocational programs
- Flexible Online programs
- Study support and tutorial program
- Enrichment program.

Claremont College teachers may have already visited your high school and had meetings with your teachers. During these sessions you have heard about the facilities and curriculum at the College. Orientation Day is another important step towards making choices for next year.

We are very aware that making choices is not easy and we are here to help you. Before you enrol you can speak with one of our teachers, who will assist you in making appropriate choices based upon your background, interest and abilities.

Towards the end of the year a team of enrolment counsellors will come to your school to discuss your options in more detail before you make your final selections for Year 11. Parents are encouraged to attend.

After enrolment you will be sent an enrolment confirmation form that will detail your course. Naturally there will be some students who will still decide that they want to make changes. We will provide times for this to occur before the end of the college year and at the commencement of 2017.

Course Information Evening

Prospective students and their parents are invited to attend a Course Information Evening on Wednesday 21 June at 7:00 pm. This session is an opportunity to meet with the Principal and staff of the College, and gain information about Year 11 and 12 subjects, tutorial and extension programs, student support services and career opportunities.

Students must enrol into at least four subjects. Each subject takes one line. As the College runs on five lines, you will have one line of non-timetabled classes a week. Subjects are listed by title and followed by a number. The number 1, 2 or 3 indicates the level of difficulty (Level 3 being the highest). VET courses are listed by title and then level of the certificate (Certificate III being the highest). Generally, Certificate I courses take one line of study and Certificate II courses will take up two lines.

Are there courses to suit my needs and ability?

We have a range of courses and subjects at different levels to cater for all students. Our enrolment counsellors will help you with subject selection and match your abilities, interests and career goals to find the right course for your pathway.

What happens if I want to go to university?

To qualify for entrance to university you must complete at least four Level 3 subjects. However, to maximise your chances of gaining entry to your desired course you should complete five Level 3 subjects over two years.

How many Level 3 subjects should I do in Year 11?

Only your best two scores from Year 11 count towards your Tertiary Entrance (TE) Score and ATAR. The College recommends that students who are contemplating university entrance undertake two or three Level 3 subjects in Year 11.

Students undertaking three subjects will be able to discard the subject with the lowest score. The emphasis is on gaining high quality awards rather than a large number of awards and it is important that you can manage your workload – quality is more important in your studies. If university is your goal, talk with an enrolment counsellor about making sure you study Level 3 pre-requisite subjects for your required university degree.

Do I have exams?

Most Level 3 subjects have an exam at the end of the year and a mid-year exam in July. Other subjects have tests and assignments during the year as part of their assessment. Some subjects have folios, independent studies and practical exams. Enrolment counsellors will be able to tell you the type of assessment required for each subject.

What is a VET program?

VET stands for Vocational Education and Training. VET courses are nationally accredited training programs. These programs are designed to provide pathways into work or further study.

Our VET programs run for 150 hours (one line) or 300 hours (two lines), depending on the course.

VET Certificate II and III programs have a workplace component, where you will spend time in the workplace being assessed on the job.

Can I do a VET program and other subjects at the same time?

Yes you can. VET and TASC subjects can be studied easily together, and allow students the best of both worlds. You can find out more about work and still leave your options open for further study at university. Many of our students choose this type of mixed course.

WHAT IS THE TCE?

TCE stands for the Tasmanian Certificate of Education. The TCE is a qualification for Tasmanians who achieve at a certain level of education. The qualification has been developed in consultation with a wide range of stakeholders including employers, industry bodies, education and training providers, parent and community bodies, schools and colleges.

Students must meet the following requirements to receive the TCE:

- **Literacy, Numeracy and ICT. A pass is required at Level 2 to achieve the required standard.**
- **Successful completion of 2 years of full time study in accredited subjects. This equates to 120 points, 80 of which need to be at Level 2 or above. A minimum of a PA award is required to receive points.**
- **Pathway Planning – students are required to review their pathway plan. This can be achieved through participation in the Tutor Group Program.**

To be eligible for an Australian Tertiary Admission Rank (ATAR) for entry into Australian universities, a student must have met the standards for the award of the TCE. Employers also expect students to have completed their TCE.

LEVEL 3 and 4 SUBJECTS

(University entrance subjects)

- Accounting
- Ancient History
- Art Production
- Art Production - Photography
- Art Studio Practice
- Australia in Asia and the Pacific
- Biology
- Business Studies
- Chemistry (Level 4)
- Computer Graphics and Design
- Computer Science
- Dance Choreography and Performance
- Drama
- Economics
- English as an Additional Language or Dialect
- English
- English Literature
- English Writing
- Environmental Science
- Food and Nutrition
- General Mathematics
- Health Studies
- Information Systems and Digital Technologies
- Japanese
- Legal Studies
- Mathematics Methods Foundation
- Mathematics Methods (Level 4)
- Mathematics Specialised (Level 4)
- Media Production
- Modern History
- Music
- Music Practical Study Foundation (Performance or Composition) (UTAS)
- Music Practical Study Advanced (Performance or Composition) (UTAS)
- Music Technology Projects (UTAS)
- Object Design (UTAS)
- Outdoor Leadership
- Physical Sciences

- Physics (Level 4)
- Psychology
- Sociology
- Sport Science
- Student Directed Inquiry
- Technical Graphics
- Theatre Performance

LEVEL 2 SUBJECTS

- Art Practice
- Athlete Development
- Automotive and Mechanical Technologies
- Business Studies - Foundation
- Computer Graphics and Design - Foundation
- Computing - Business
- Computing - Game Design and Robotics
- Contemporary Music
- Dance
- Design and Production - Composite Materials
- Design and Production - Metals
- Design and Production - Textiles
- Design and Production - Wood
- Drama Foundations
- English Applied
- English as an Additional Language or Dialect
- English Foundations
- Food, Cooking and Nutrition
- Food and Hospitality Enterprise
- General Mathematics - Foundation
- History and the Environment
- Introduction to Sociology and Psychology
- Japanese - Foundation
- Legal Studies - Foundation
- Life Sciences
- Media Production Foundations
- Music Technology Projects - Foundation
- Musical Theatre
- Music Studies
- Outdoor Education - Adventure Recreation

- Personal Health and Wellbeing
- Personal Pathway Planning
- Physical Sciences - Foundation
- Sport Science - Foundation
- Technical Graphics - Foundation
- Technical Theatre Production
- Visual Art
- Visual Art - Photography
- Visual Art - Digital Art and Media
- Working with Children
- Work Readiness
- Workplace Maths

LEVEL I SUBJECTS

- English as an Additional Language or Dialect
- Everyday Maths
- Food and Cooking Essentials
- Physical Recreation
- Practical English
- Pathways to Work
- Workshop Techniques - Introduction to Bodyworks

OTHER SUBJECTS

- Basic Communications
- Basic Number Skills
- Building Connections
- Community and Me
- Essential Skills - Maths
- Essential Skills - Reading and Writing
- Essential Skills - Using Computers and the Internet
- Environment and Nature
- Expression through the Arts
- Prepare for Work
- Prepare to Live Independently
- Sport and Recreation for Life

VET PROGRAMS

- Certificate I in Automotive Vocational Preparation
- Certificate I in Defence Force Cadets
- Certificate II in Automotive Vocational Preparation
- Certificate II in Business
- Certificate II in Community Services (focus on Aged Care and Disability)
- Certificate II in Community Services (focus on Children's Services)
- Certificate II in Construction
- Certificate II in Construction Pathways - Statement of Attainment
- Certificate II in Electrotechnology (Career Start)
- Certificate II in Hospitality
- Certificate II in Kitchen Operations
- Certificate II in Retail Cosmetics
- Certificate II in Salon Assistant (Hairdressing)
- Certificate II in Skills for Work and Vocational Pathways
- Certificate II in Sport and Recreation
- Certificate III in Health Services Assistance (Nursing) - Statement of Attainment

SHORT COURSES

- First Aid
- Prepare and Serve Espresso Coffee
- Responsible Service of Alcohol (RSA)
- Road Safety Education

Please note: The availability of all subjects is dependent on enrolment numbers.

Assessment for each subject begins from the first day and continues throughout the year. Your teacher will build up a record of your work and assessment, and give you regular feedback. It is important to attend every lesson and complete every assessment task to ensure you get the best results possible.

Parent-teacher evenings are held in first, second and third term to enable you and your parents to meet with teachers and discuss your progress. Written reports on your progress in each subject are issued in May and August. Near the end of your course you will be informed of your expected final results in the course. In the case of Level 3 subjects with examinations and other external assessment, you will be informed of your expected internal results. Your final results and certificate are issued by the Office of Tasmanian Assessment, Standards & Certification (TASC).

You will notice many differences between Claremont College and your high school. To work effectively at the College you need to accept a high level of responsibility but there is also significant support available. If you exercise maturity and self-discipline in all that you do, you will find study and learning here very enjoyable and successful.

When do I start?

Year 11 students start on Wednesday 7 February 2018 at 8:45 am. You will be shown how your timetable works and given information about lockers, internet access, Library and bus passes. You will also meet your teachers for all subjects on this day.

Where do I go?

Walk up the central street to the Student Common Room (D Block). On the Student Common Room windows will be a list of student names in alphabetical order. Your name will be there; we're expecting you! Our friendly staff will be available to assist you to your first Tutor Group session. Your Tutor Teacher will guide you through the rest of the day's program, including giving you your timetable and answering your questions.

Year 12 students start college the next day.

What do I bring?

- Pen
- Notebook or exercise book
- Padlock for lockers which are available on Day 1

There will be a free BBQ lunch on the first day and the canteen will also be open.

ID Cards

All students will be issued with an ID card which must be carried at all times and is used to borrow resources from the Library. To obtain an ID card, your Tutor Teacher will organise for your class to have an individual photograph taken at the Library.

Is smoking allowed at the College?

Smoking is not permitted on College grounds. It is an offence to smoke on Department of Education property. If students choose to smoke, they must leave the College grounds, no matter what the weather is like. If you would like assistance to help you give up smoking then please talk to a teacher or one of our Student Support Team.

Code of Behaviour

Rights

We all have:

- the right to learn
- the right to be respected
- the right to be safe at all times.

Responsibilities

We have a responsibility:

- to allow learning to occur
- to respect ourselves and others
- to act in a safe manner.

English as an Additional Language (EAL) Program

The EAL program is available to students who are new residents to Australia. Students participate in an EAL subject plus three or four other subjects. Students are provided with additional support in classes and a range of activities to help them feel connected to the College and their studies. As part of this program, students are supported in understanding the differences in the way things work in Australia as well as providing links to community health and wellbeing programs.

Young Mothers Program

Claremont College runs a program for young mothers and mothers-to-be. This program is a great way to continue your education while meeting new people and having fun. By participating in the Young Mothers Program you will be able to complete subjects which contribute to gaining your TCE.

High and Additional Needs Program

Claremont College has a strong history in providing high quality learning experiences for students with high and/or additional needs. Our Integrated Skills Program (ISP) caters specifically for students with disability. This is a two year program that has been designed around developing essential life skills that will be important for transition to life beyond college. This course includes sport and recreation, literacy, numeracy, cooking and nutrition, life skills and computing.

Breakfast Program

Our Breakfast Program supports students to have a good start to the day by providing them with the opportunity to share a nutritious breakfast in a supervised environment. This program is free and available to all students. The program operates from 8:15 am – 8:40 am in the Student Common Room. Toast, cereals and hot drinks are available.

Tutor Group Program

Tutor Group is compulsory for all students and occurs once a week for 40 minutes. The purpose of Tutor Group is to prepare you for life beyond formal education and training. Your Tutor Teacher provides support and advice in areas such as career planning, health issues, recreational opportunities and using community resources. Activities such as assemblies, guest speakers, whole school events, career expos, health and wellbeing sessions are all core parts of the program.

The Tutor Teacher is a key contact for you at College, providing pastoral care support and maintaining regular contact with parents or guardians. The program is an essential requirement for gaining the TCE. Tutor Group is a recognised TASC course and will count five credit points at Level 2 towards your TCE.

Enrichment Program

The College recommends you balance your academic program with extra-curricular activities.

The Enrichment Program offers a rich and extensive selection of activities. Regular offerings such as: Fitness for Girls, Computing, Basketball, Football, Art, Essential Skills (ICT), First Aid, Coffee Making, How to Maintain Your Car and Rock Climbing are popular choices amongst students.

Tutorial Program

If you are studying a Level 3 or 4 subject at Claremont College you will have the opportunity to participate in weekly tutorials. These sessions provide extension on classroom work, preparation for exams, homework support or revision of exam questions.

Student Leadership Group

The Student Leadership Group organises a variety of lunchtime activities such as food events, community forums, assemblies and fundraising activities. They also organise the College end of year dinner. Members of the Student Leadership Group represent the student body at forums and council meetings. Students self-select to join this group so everyone has a chance to be involved! By joining this group you will:

- develop skills in meeting procedures
- experience opportunities in public speaking and managing events
- develop an understanding of teamwork and participation
- demonstrate an awareness of youth issues.

UTAS College Programs

The University of Tasmania provides extension programs for college students that offer considerable benefits. In addition to the academic challenge, successful participation in an extension program means credit toward your chosen degree and a saving on the costs of studying University units. Course details, delivery and assessment differ for each program. There is a mixture of online delivery, class work and weekend workshops. Assessment is completed by University teachers and can be both criterion and competency based. Some units are assessed jointly by both the College and University teachers. Information about entry into these programs is available during Term One from College teachers.

Your teacher will discuss entry requirements with you and assist you with enrolment details and completing the course work.

How do I know what is happening in the College?

We have a weekly information sheet called Tutor News which is available on the College intranet and is read to students during Tutor Group. Communication screens are located at various places throughout the College, relaying important information to students during the day.

Music Tutoring

Claremont College employs specialist tutors in a variety of music genres, instruments and styles. The tutors work in the classroom, offering tuition, support and guidance. They participate in performances, accompanying rehearsals and assist in choice of repertoire.

Newsletter

The College Newsletter is published each term and celebrates the achievements of our students. It is also an important means of communicating information to parents about important College issues and upcoming events. The newsletter is mailed home to parents.

College Production

Claremont College has produced many spectacular shows. In 2017 the College is staging *Return to the Forbidden Planet*. Previous musicals include *Back to the 80s*, *Dusty - The Original Pop Diva*, *Grease* and *All Shook Up*. Students wishing to participate in the production are required to enrol in this course. The College Production is a great way for students to develop their skills in acting, dancing, singing, musicianship and technical theatre. It enables students to build confidence, meet new people and experience team work at its best!

Claremont College offers a range of support services to students. We have a number of specialist staff to support you with: course information, post-college pathways, career counselling, personal or learning difficulties, Centrelink, housing and accommodation services, job opportunities and links to other key support agencies.

Our support team consists of:

- **Principal and Assistant Principals**
- **Teachers**
- **Course Counsellors**
- **Social Worker**
- **Attendance Counsellor**
- **Tutor Teacher.**

Student Accommodation

Housing Connect reserves accommodation for Claremont College students. Spaces are limited. If you are interested in finding out more please contact our Social Worker, Kate Shaw to discuss options.

Student Attendance

Success at college is closely linked to good attendance. You are expected to attend all classes for all subjects in which you are enrolled, including Tutor Group. Subject teachers check and record attendance at every lesson.

Parents play an important role in supporting their child's education, including Years 11 and 12. Text messages (SMS) are sent each day to inform parents if their son or daughter misses a class. Printouts of each student's attendance record are also sent home during the term.

If absences occur without a valid explanation, the Tutor Teacher or senior staff member may contact parents to discuss any problems the student may be having.

Why is it important to attend all classes?

If you are absent from a class you are missing important subject work. This will affect your final results.

Exemptions for absences are granted for specific purposes as listed below:

- Illness
- Death in the family
- Participation in State sporting, academic or cultural events
- VET work placement
- College excursions and activities.

Students may also be able to get exemptions for personal reasons depending on the circumstances. Exemptions will not be granted for excuses such as missing the bus or sleeping in. These absences are noted as 'unauthorised' in the students' records.

Levies

The College levies are set on a statewide basis. Levies for 2018 are \$390 for a full time student. These levies help to pay for classroom consumables, internet access, excursions, sport and the College Yearbook. An invoice is sent to parents during Term 1 and arrangements can be made to pay in instalments if required. Please note, some subjects also require an additional fee. Information about levies and fees are sent home in the Confirmation of Enrolment packs during December.

Families who are approved for the Student Assistance Scheme (STAS) will not be required to pay the levy for books or stationery. STAS is available to parents of full-time students who meet the prescribed income tested criteria. Independent students may also be eligible for STAS. Forms for application for STAS are available from the College Office.

Textbooks and Stationery

Textbook and stationery requirements are posted with the course confirmation details at the end of the year. This will also contain information about suppliers.

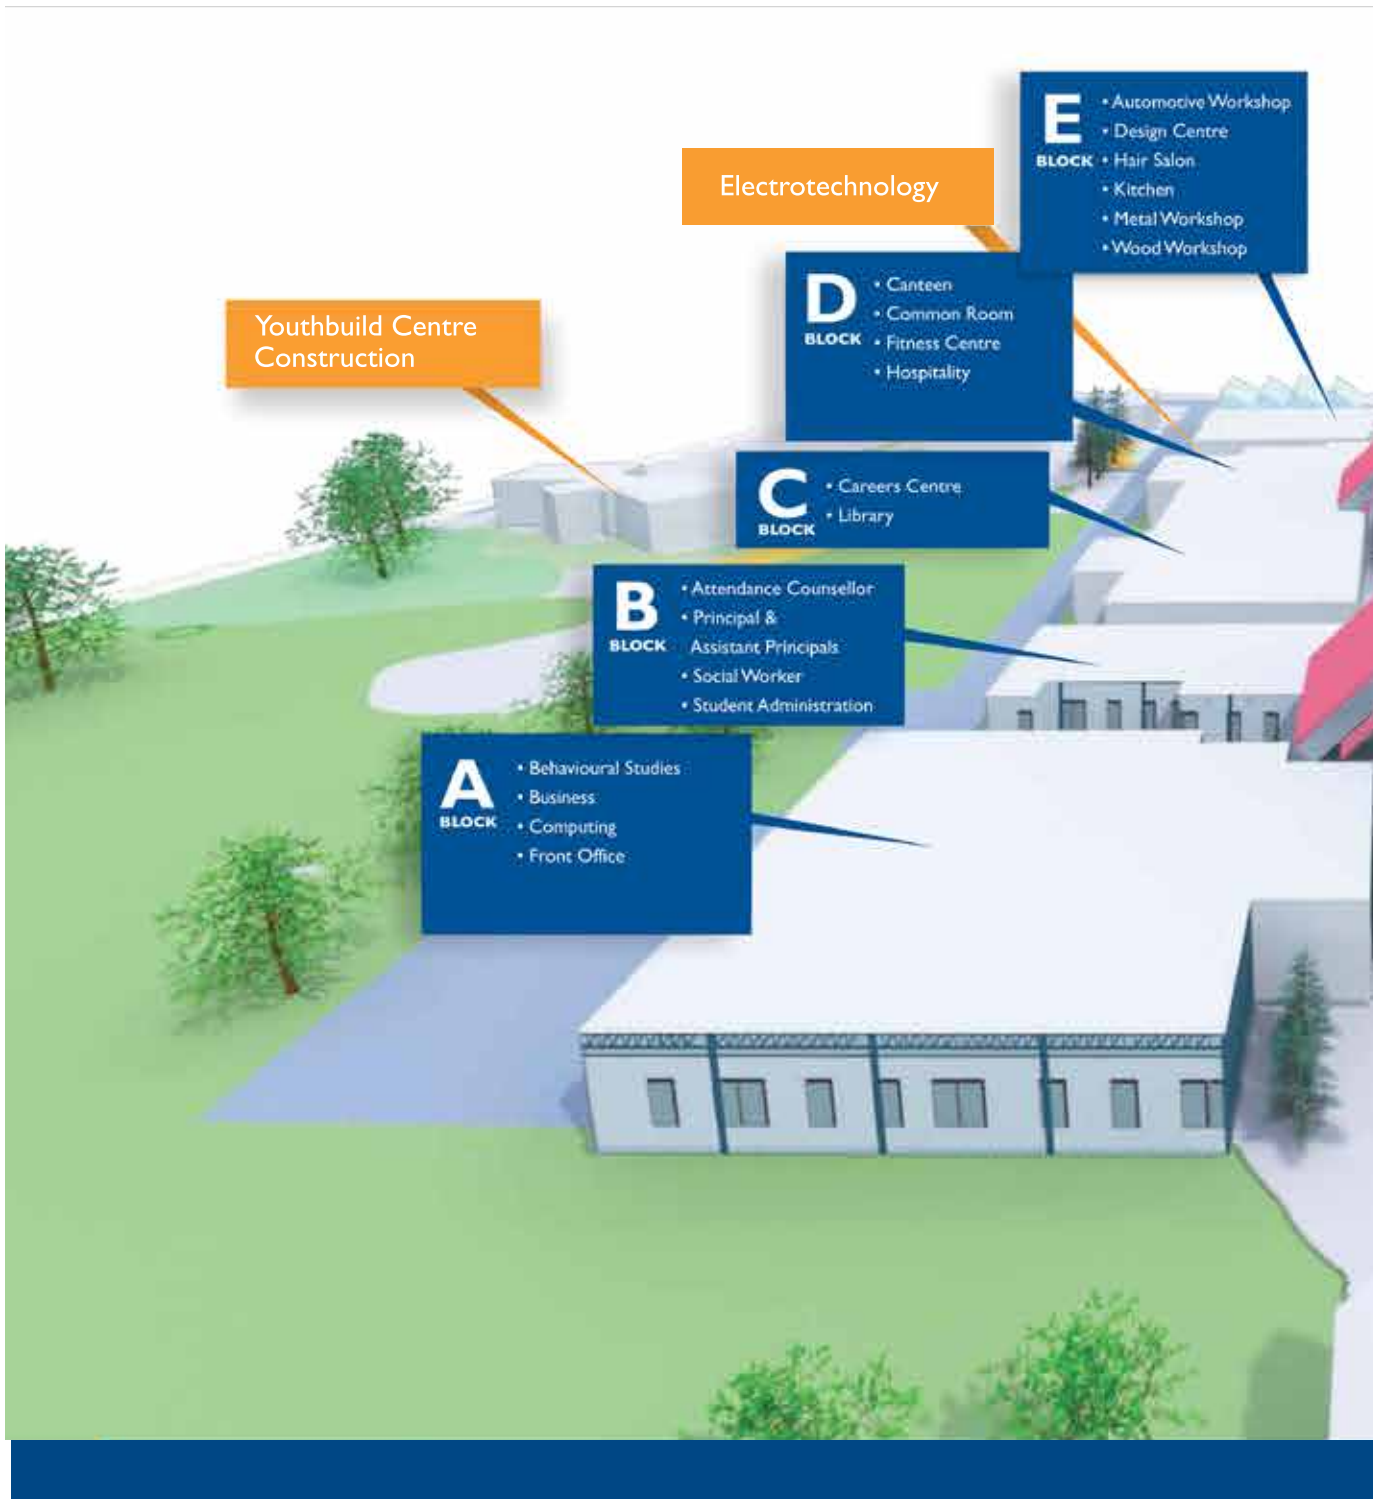

Those students who have STAS approval will be able to collect STAS texts and stationery from the Front Office in January.

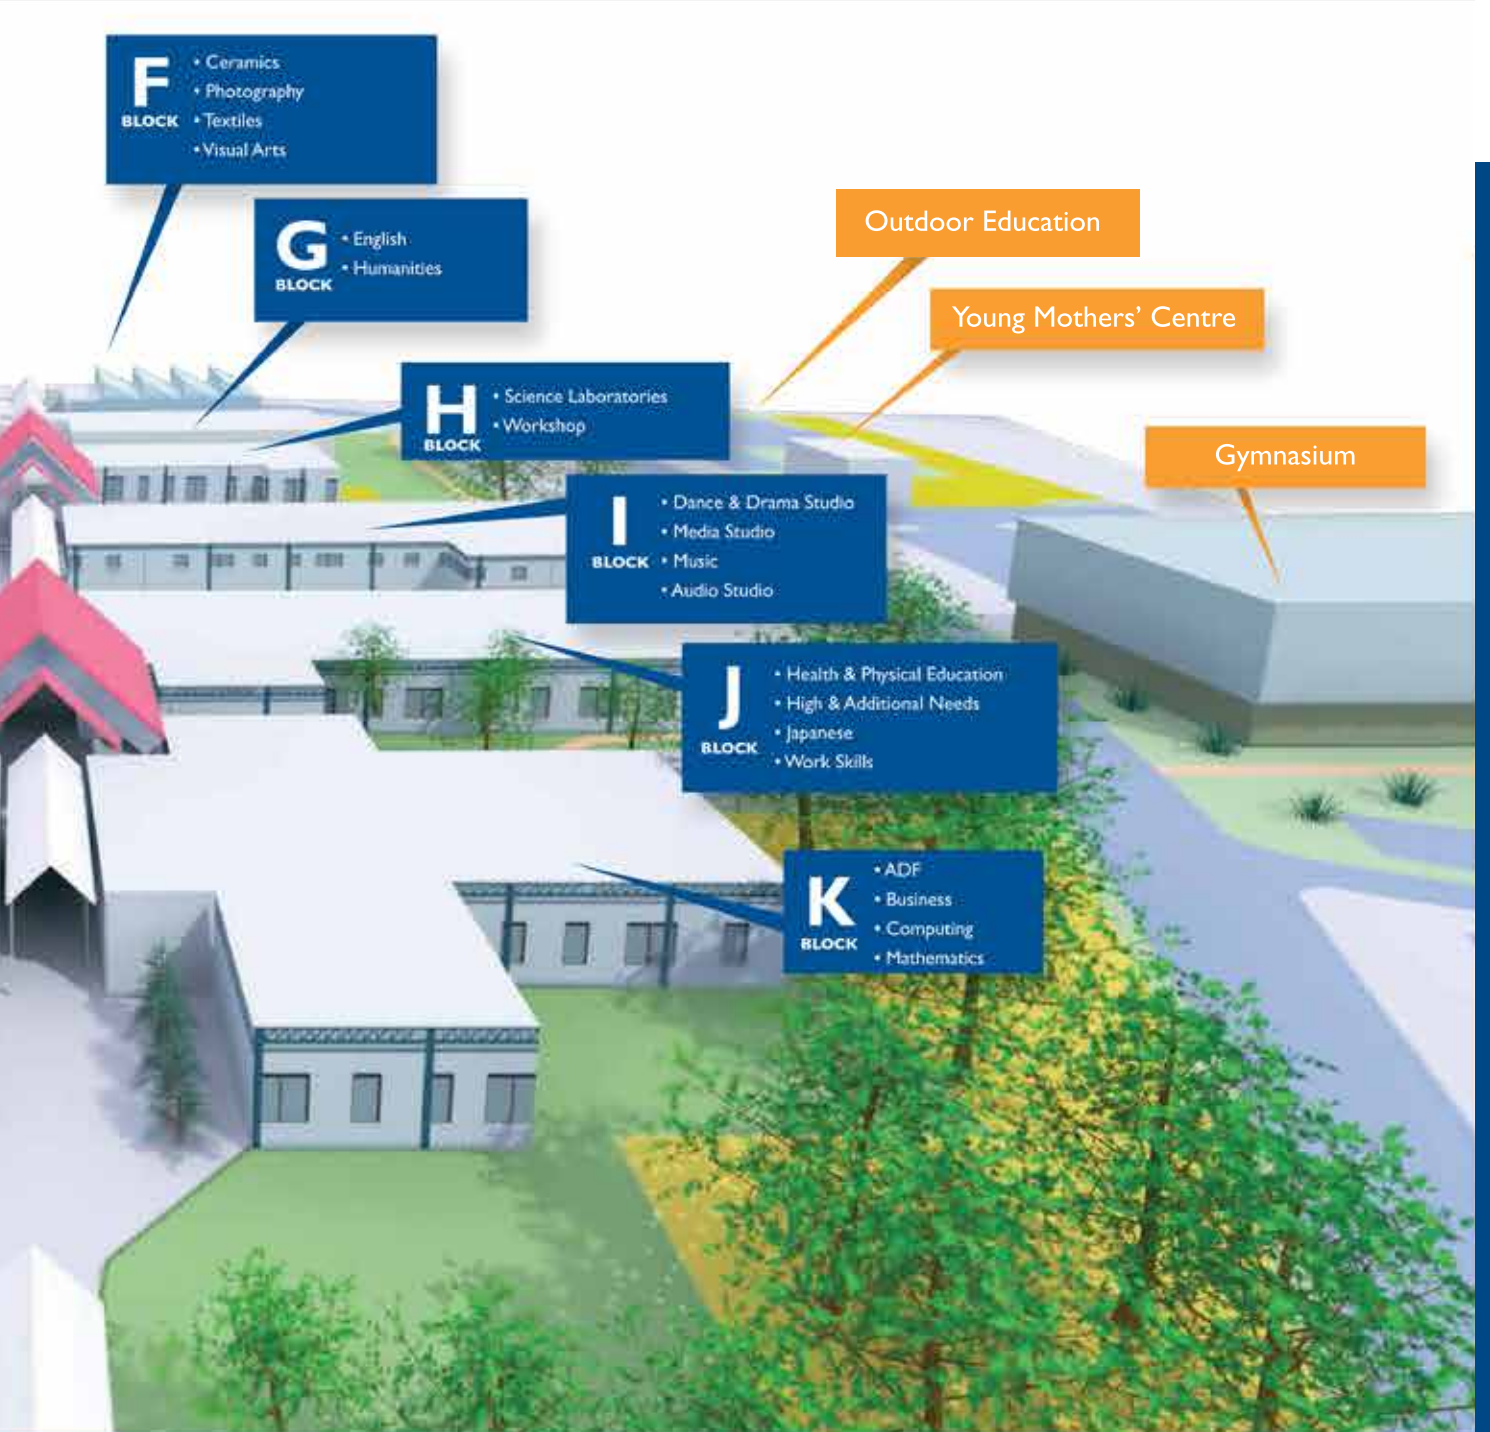

- Claremont College is a modern campus with excellent facilities. Most learning areas are arranged on either side of a central 'Street'. It is easy to find your way around and there is access for wheelchairs. Learning areas are well-equipped to provide top quality learning experiences, with interactive whiteboards, data projectors and computer access for all classes.
- The Library is a great study centre with a wide range of print resources, up-to-date computer facilities and study areas. Laptops are available on loan to students for use at home as well as in the College.
- The Student Common Room and Cafeteria offer food, drinks and a comfortable place to chat with friends or listen to performances.
- There are great recreational facilities including a gym, rock-climbing wall and a well-equipped weight room.
- There are two commercial kitchens and a dining room for catering and hospitality classes, and a café bar for barista courses.
- Specialist facilities are available for:
 - drama and dance
 - music and music technology
 - media
 - visual arts, ceramics and photography
 - wood and construction
 - metal and automotive.
- Our construction facility offers excellent workshops and a classroom.
- Our modern facilities also include a hair salon equipped to accommodate students wishing to study hairdressing, makeup or skincare.
- Our most recent addition is a specialist facility for VET Electrotechnology.
- Student support services are centrally located in B Block and accessible to all students.
- College buses allow excursions in Outdoor Education and many other subjects.
- Student car parking is available in a designated area.
